Dear Valued Customer,

QImaging, a world leading manufacturer of CCD, CMOS cameras for scientific research including the Retiga, Rolera and Micropublisher series, is pleased to announce that as of January 1st, 2016, Shoshin EM K.K. will be our exclusive distribution partner for Japan. Shoshin EM K.K. have a successful history of selling and supporting the QImaging product range and will be able to assist you with your camera and imaging solution needs.

For more information, pricing and support of our products, please contact Shoshin EM K.K.

Phone: 0564 54 1231

Web: <http://www.shoshinem.com/>

Note that orders for QImaging products will be transferring to Shoshin EM K.K. beginning November 30th, 2015. After this date, QImaging orders will not be processed through the Nippon Roper K.K.

Best Regards

James Francis
